faculty
&
administration

M. D. Boatwright
Director

Message

By M. D. Boatwright

Swainsboro Tech is known by the purpose for its being. This purpose becomes a reality through the dedicated efforts of its faculty and staff, as well as the quality of the character and skill of its graduates.

It is a privilege to be a member of a team that means so much to the area served and to the individuals participating.

We must be prepared to meet the challenge of our changing times, in developing the skills of our world of work as well as our civic responsibilities and in our home life. We are confident that you will do your part by making records that will reflect both stability of character and competency for the job.

Our best wishes go with you in every way. We trust that you will return often for a visit and for further training.

Board Members

STANDING: Tom Durden, Garnett Stevens, Bill Rogers. SEATED: Coy Youmans, Clyde Poole, Wallace Bailey.

dedication

A unique condition at Swainsboro Tech is the cooperation and encouragement the students receive from the faculty and administration.

One of the faculty members, however, has been a very active participant in the many projects and activities undertaken by our student body. He has been a friend and companion to all from student to teacher. His leadership, comradeship, and humor have proved very outstanding and necessary traits in helping us this school year.

For your friendship, concern, and inspiration, Mr. Bedingfield, we honor you with this dedication.

in appreciation

The closing of the 1969-70 school year provides an excellent opportunity for us to express our appreciation to Messrs. Don Wilson and Joe Hull for all the cooperation and consideration that they have shown to us.

Frequently, members of the annual staff called upon them for special favors. They always gave graciously of their time. Mr. Wilson made arrangements for pictures and made necessary contacts with the yearbook company. Mr. Hull took many pictures during school and after school.

Messrs. Wilson and Hull, the members of the Reflector staff appreciate your help and cooperation.

editor's note

Teamwork is the key to the success of most endeavors. Last Fall the members of the annual staff undertook the challenge of compiling a yearbook for the students and faculty of Swainsboro Tech. Working as a team we have compiled a yearbook of which we are proud and gratified.

It has been an honor and a privilege to work with the members of the annual staff, the faculty members, and others who have given generously of their time and efforts. It has been a most memorable and rewarding experience.

The annual staff hopes that you will enjoy and cherish the yearbook throughout the years. If so, then their time and efforts have been worthwhile.
